

Spreader Bar for Forklifts

Forklift Spreader Bars - ELME has been proudly operating ever since 1974, becoming the largest independent spreader maker all over the globe. They are a dedicated manufacturer of spreaders for many different applications such as the swap bodies, trailers, and handling of containers.

Engineering is done in house by utilizing all the latest FEM tools and CAD systems. The ELME business currently employs more than 125 staff members. Their spreaders are supplied to reach lift trucks, gantry, quayside, ship-to-shore cranes, stackers and straddle carriers all-around the globe.

The ELME product range offers spreaders used for several container and trailer handling operations. Some of their inventory comprise: Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers as well as a huge range of attachments.

ELME manufacturing and production is performed in a highly automated purpose built factory. In 2008, they created over one thousand one hundred fifty spreaders by utilizing top quality parts to be able to ensure reliability and high standards while offering reasonable prices. Major characteristics of ELME consist of design simplicity, market response and innovative modular spreader concept.
