

Meritor Part

Meritor Parts - Meritor is a leading international supplier which is proudly established on a 100 year custom of service and quality. They focus on several modules, integrated systems and components to original equipment makers and the aftermarket for the industrial and transportation sectors.

Meritor values the wishes of all their customers to ensure their success while priding itself in the company's unique energy and feels this output of energy to be their competitive advantage in their international operations. Meritor begins with a tradition which values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring over 11,200 individuals, Meritor promotes innovation and collaboration amongst a team of knowledgeable professionals.

By just employing future focused staff, Meritor strongly thinks these top-caliber people would be able to quickly adapt to changing environments and exhibit the commitment and performance required to be able to reach results in the competitive materials handling business. The business empowers their teams to make sound business decisions so as to improve the overall success of the business. In return, Meritor offers all of their employees various chances for professional and personal development.

Their Advanced Engineering team is at the forefront of components and system engineering which comprise axles, drivelines, suspension and braking systems used for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the whole Asia Pacific region. This particular team is even responsible for supporting the needs of their worldwide engineering personnel.

The Quality team at Meritor is a customer-focused and dynamic group that is devoted to ensuring optimum progress at their production plants and aftermarket distribution facilities which are located on 5 continents and in 19 nations.

They have their supplier network which is specifically located to support the growth of the business. Each regional team has globally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making within every part of the company. The DFSS or also known as Design for Six Sigma ensures product reliability within every region. The team is also included transactional Green Belts who make use of Six Sigma tools to business techniques and implement lean methods.
